SUMMERY

Hello! I am Amir Mostofaa, a passionate and dedicated Frontend Developer. I specialize in creating modern website design in HTML/CSS, Bootstrap, Flexbox, Grid, and JavaScript on the front end. However, I'm fairly comfortable with ReactJS, Material UI, React-Bootstrap, ExpressJS, NodeJS, MongoDB, Firebase, and Customization Expertise on WordPress, and Shopify.

EXPERIENCE

Since December 2019, I have been providing WordPress Customization and Unbounce Landing Page Design services on Fiverr and have completed 25 jobs successfully.
In addition, I am a Level One seller.

On Upwork, I also completed a WordPress project.
